2. Submit the funding application. This will be either online through a portal, on an editable document or in hard copy. The funding application form will be available once you are invited to apply. A sample application form can be accessed [here](#).

Before applying, you must read and understand these guidelines.

Application Steps:

- Complete the online expression of interest form. This must be endorsed by an authorised signatory for the organisation (e.g. Chief Executive Officer, President, Chairperson, Treasurer or Secretary)
- Submit your expression of interest by 12:00pm AEST 4 October 2024
- If you receive an invitation to submit a funding application, submit this online before the grant period closes, by 12:00pm AEST 28 October 2024.

If you have questions about any part of the application process, need support with completing the application or are experiencing technical difficulties, please call or email us – Ph: 30027600 option 1, Email: grants@volunteeringqld.org.au

Please note: You cannot change your application once it has been submitted.

You should keep a copy of your application and any supporting documents. You will receive an automated notification acknowledging the receipt of your application.

No late expressions of interest or applications will be accepted.

5. Grant selection process

Assessments will be undertaken through a competitive grant process.

All eligible expressions of interest will be invited to submit an application. Each State and Territory will elect at least 3 people per assessment panel, more people will be invited to the assessment panel in larger jurisdictions to assist with additional applications. Panel members will review and assess applications against the specified criteria.

5.1 Selection process

Each State and Territory volunteering peak body will have grant assessment panels in place. Each selection panel will be made up of representatives nominated by the relevant State/ Territory volunteering peak body and an independent probity advisor. The State/ Territory volunteering peak body will provide chairing and secretariat duties for selection panel meetings. All panelists will have a working knowledge of the volunteering sector. All decisions throughout the selection process will be documented.

Each selection panel will review grant applications based on merit and assessed against two equally weighted selection criteria noted below:

| Selection Criteria | Weighting |
|---|-----------|
| What are the expected outcomes of this project? | 50% |
| How will the project build capacity of volunteers to improve volunteer programs and impact objective cohorts? | 50% |

All applications will be assessed using a common appraisal process however the assessment process may rely on knowledge or documentation other than the application form. If this occurs the reasons will be documented.

Through the review process, if there are equal weightings for a number of applications and there are not sufficient funds remaining to fund those projects, the selection panel will determine the successful applicants from the equal weightings by taking into consideration the current distribution of successful applicants across geographical area (metro, regional, rural, remote) and service/sector type (e.g. animal welfare, sport and recreation, etc.) to ensure a fair distribution of the funds across the sector. Partial funding may be awarded if the funding allocation does not allow for the full funding of the project.

The relevant staff from each volunteering peak body and those appointed to selection panels will be required to declare any conflict of interest they may have with any applicant.

A conflict of interest may arise:

- Where decision-makers or officials involved in grants administration have a direct or indirect interest, which may influence the selection of a particular grant activity
- Where members of external committees have a direct or indirect interest in informing a decision about expenditure or providing advice on grant opportunities
- Where a potential grantee has a direct or indirect interest, which may influence the selection of their proposed grant activity during the application process

In the decision-making process the selection panelists will consider and ensure proper use and management of public resources incorporating an assessment of value for money. An independent probity advisor will attend all grant panel meetings/be privy to all communication between those members and otherwise review all documentation and processes related to the grant.

Please note: Under these Guidelines ‘proper’ means efficient, effective, economical, and ethical.

The proposed list of successful applicants will be provided to the Department of Social Services for review and approval.

Recommendations of the final outcome of the grants will be made to the Chief Executive Officer of the relevant State/Territory volunteering peak body. The decision of the Chief Executive Officer will be final.

All applicants will be notified in writing of the outcome of their application.

Feedback on individual applications will not be given.

Due diligence

An assessment process will be undertaken to ensure the validity and eligibility of applications as part of the due diligence process.

Organisations that submit multiple applications

Multiple funding applications received from the same organisation (i.e. autonomous branches/ sub-groups sharing the same ABN, within each State/ Territory) will be assessed based on the remaining funding available and the selection criteria. Where multiple applications are received from the same organisation, the application that rates highest will be considered first for the merit list for funding. Additional applications from that same organisation will only be considered if all funding has not been expended to individual organisations in that State/ Territory.

Financial Viability

Applicants may be subject to a financial viability assessment. The financial viability assessment forms part of the risk mitigation strategy and can include:

- Establishing whether relevant persons have any adverse business history (e.g. current or past bankruptcy)
- Assessment of the financial health of an entity.

We will advise you if your organisation is subject to a financial viability assessment.

6. Successful grant applications

Successful applicants will be notified by 25 November 2024 via email with an On-Funding Funding Agreement. Names of successful applicants will be published on the Volunteering Queensland website.

6.1 On-Funding Funding Agreement

The On-Funding Funding Agreement will outline the eligible items approved for expenditure, as well as any reporting and financial acquittal obligations. Expenditure of grant funds must be made in line with the On-Funding Funding Agreement. A sample On-Funding Funding Agreement can be found [here](#).

6.2 How the grant will be paid

The On-Funding Funding Agreement will state the maximum grant amount to be paid. This amount will not exceed the maximum grant amount (i.e. \$20,000) under any circumstances. If extra costs are incurred by the organisation receiving the grant, these remain the responsibility of that organisation. **If the organisation is seeking funding to contribute to a project that has multiple funding sources, this should be stated in the Expression of Interest and in the Application Form.** Volunteering Queensland will not be responsible for reimbursement of any extra costs.

100 percent of the grant will be paid on execution of the grant agreement.

6.3 Reporting requirements

Successful Applicants will receive an On-Funded Funding Pack, this will include the following documents:

9. Commonwealth Child Safe Framework

The Royal Commission into Institutional Responses to Child Sexual Abuse highlighted the need for organisations to adopt child safe practices including appropriate screening of staff, mandatory reporting and adoption of the National Principles for Child Safe Organisations. The Australian Government committed to a new Commonwealth-wide framework to protect children and young people it is responsible for – the Commonwealth Child Safe Framework (CCSF).

The Australian Government has put in place ways to apply certain child safety requirements of the CCSF to grantees. See above Section 2.4. The relevant child safety clause will be included in On-Funded Funding documentation.

If the proposed activity involves direct interaction with children, or children will be somehow involved in the activity, then a CB9 Child Safe Statement of Compliance will need to be completed. If the proposed activity does not include direct contact with children a G8A Child Safe Statement of Compliance will need to be completed.

Details on the specific child safe eligibility criteria can be found on the [Child Safety for DSS grants](#)^[1] webpage and the supporting [Frequently Asked Questions for DSS Grantees](#)^[2].

10. National Agreement on Closing the Gap

The National Agreement on Closing the Gap (National Agreement) objective is to enable Aboriginal and Torres Strait Islander people and governments to work together to overcome the inequality experienced by Aboriginal and Torres Strait Islander people and achieve life outcomes equal to all Australians. The National Agreement is underpinned by the belief that when Aboriginal and Torres Strait Islander people have a genuine say in the design and delivery of policies, program and services that affect them, better life outcomes are achieved.

The National Agreement has been built around four Priority Reforms, these reforms recognise the voices and aspirations of Aboriginal and Torres Strait Islander people and are central to the National Agreement. The aim of the Priority Reforms is to change the way governments work with Aboriginal and Torres Strait Islander people to achieve the socio-economic targets outlined in the National Agreement.

The Priority Reforms are:

- Formal partnerships and shared decision-making
- Building the community-controlled sector
- Transforming government organisations
- Shared access to data and information at a regional level.

The Department encourages grantees to work towards having a deep understanding of the Priority Reforms and how embedding them into the way services are designed and delivered will actively contribute to the Closing the Gap targets. This includes considering how to engage in genuine partnerships with Aboriginal Community Controlled Organisations and local Aboriginal and Torres Strait Islander communities. Grantees are required to ensure their services are culturally safe and responsive to the needs of Aboriginal and Torres Strait Islander people.

11. Indigenous organisation type classifications

All Australian governments are working with Aboriginal and Torres Strait Islander people, their communities, organisations and businesses to implement the National Agreement on Closing the Gap (National Agreement) at the national, state and territory, and local levels. The National Agreement identifies four (4) priority areas for reform within government. One of these is Priority Reform 2, building the Aboriginal and Torres Strait Islander community-controlled sector to deliver services to Aboriginal and Torres Strait Islander communities.

To assist government with improving and reporting on the level of community grant funding going to Aboriginal and Torres Strait Islander organisations, changes have been made to the way organisation data is collected. Aboriginal and Torres Strait Islander organisations will now be classified into 3 tiers and asked to self-identify which group they fall under. The three (3) tiers and their definitions are:

| | |
|--|--|
| Aboriginal and Torres Strait Islander Community Controlled organisation | These are organisations that are incorporated, not for profit, at least 51% Aboriginal and Torres Strait Islander owned and at least 51% Aboriginal and Torres Strait Islander controlled (Board members or equivalent). |
| Aboriginal and Torres Strait Islander Operated and Controlled organisation | These are organisations that are at least 51% Aboriginal and Torres Strait Islander owned and at least 51% Aboriginal and Torres Strait Islander controlled (Board members or equivalent). |
| Other Aboriginal and Torres Strait Islander organisation | These are organisations that are at least 50% Aboriginal and Torres Strait Islander owned OR at least 50% Aboriginal and Torres Strait Islander controlled (Board members or equivalent). |

12. Specific legislation, policies and industry standards

Whilst you are required to be compliant with all relevant laws and regulations, you may be requested to demonstrate compliance with the following legislation/policies/industry standards:

- Workplace Gender Equality Act 2012 reporting requirements.

You may need to declare you can meet these requirements in your grant agreement with the Commonwealth.

13. Multicultural Access and Equity

The Australian Government's *Multicultural Access and Equity Policy* obliges Australian government agencies to ensure their policies, programs and services - including those provided by contractors and service delivery partners - are accessible to, and deliver equitable outcomes for, people from multicultural communities.

Grant applicants should consider how they will ensure their services will be accessible to people from multicultural communities. For example, service delivery partners may require cultural competency skills. In addition, services, projects, activities or events may require the use of professional translating or interpreting services in order to communicate with clients who have limited English proficiency.

14. Grant evaluation
